This workbook was developed to help families organize the considerable and sometimes confusing array of information existing about their child with special health care needs. It can also be used to help coordinate and bring together the many services and providers of care involved in the child's life. The idea for the workbook came from the staff of the Division of Specialized Care for Children, however, it could never have been brought into being without the dedicated efforts of parents and care providers who reviewed, criticized and often rewrote its content. There is not sufficient room to recognize everyone who helped to make this idea a reality but it would be wrong for the Division not to acknowledge and thank the following persons for their very special commitment and contributions.

Wanda J. Thompson, Assistant Director for Program Support
Ron Renshaw, Program Support Specialist
Josie Negro, Project Secretary
